NetZero

# Accelerating sustainable health innovation

Propel@YH Net Zero is a new sustainable health accelerator pilot programme for SMEs who either have new innovations that can support the NHS's drive towards 'net zero', or who have existing products that can be made more sustainable, for the benefit of the West Yorkshire region.

Commissioned by West Yorkshire and Harrogate Health and Care Partnership and delivered by Yorkshire & Humber AHSN, the Propel@YH Net Zero programme will provide its 2021 participants with access to a structured course of support and advice tailored to their needs.

The Yorkshire & Humber AHSN is looking for companies that:

- Support the net zero ambitions of the NHS with innovations that have a positive impact on environmental sustainability and/or,
- Have an existing product that has the potential to be adapted to make our health and care system more environmentally friendly
- Are already based in or are working with an NHS organisation in the West Yorkshire region.

This call is open for applications from innovators with solutions in several areas including but not limited to: digital, estates, travel, waste management and consumables/ equipment.

Propel@YH Net Zero invites applications from SME organisations with innovative solutions who can meet these needs and already have a presence in the West Yorkshire region.

The three-month programme will provide up to four organisations with unique and tailored guidance and support services to enable them to bring innovative green solutions to the region.
